Minutes for Meeting 2

December 21, 2011

1 Participants

Ed Keedwell, Martin Boissier, Hugo Hutt

2 Topics

- The Ant Wars problem was selected for the project.

- General design and implementation issues were discussed, such as the choice of programming language and how to split up the problem.

- General discussion of how to represent the grid and ant and how to divide the problem between the team members.

3 Decisions

It was decided that further research would be carried out into the problem before the next meeting.
